Raising My Rainbow-Lori Duron 2013-09-03 Raising My Rainbow is Lori Duron’s frank, heartfelt, and brutally funny account of her and her family’s adventures of distress and happiness raising a gender-creative son. Whereas her older son, Chase, is a Lego-loving, sports-playing boy’s boy, Lori’s younger son, C.J., would much rather swirl around in a pink sparkly tutu, with a Disney Princess in each hand while singing Lady Gaga’s “Paparazzi.” C.J. is gender variant or gender nonconforming, whichever you prefer. Whatever the term, Lori has a boy who likes girl stuff—really likes girl stuff. He floats on the gender-variation spectrum from super-macho-masculine on the left all the way to super-girly-feminine on the right. He’s not all pink and not all blue. He’s a muddled mess or a rainbow creation. Lori and her family choose to see the rainbow. Written in Lori’s uniquely witty and warm voice and launched by her incredibly popular blog of the same name, Raising My Rainbow is the unforgettable story of her wonderful family as they navigate the often challenging but never dull privilege of raising a slightly effeminate, possibly gay, totally fabulous son. Antipathy—Bradley J. Peterson 2014-06-29 Danielle is a troubled but bright
girl at Martino Prep, an old private academy she attends to help her
problems that can arise out of value conflicts. I have provided true
stories from my own life and from the lives of my family members, friends,
and students to clarify and underscore key points. The stories are all true.
However, some of the names were changed to protect each person’s
privacy, except in cases where permission was granted to use the person’s
real name. Throughout this book, I have used a cinematic (pertaining to the
movie industry) analogy to explain the spiritual, psychological, physical, and
social issues involved in personal adjustment and growth across the life
span. I have used the cinematic analogy to both simplify and dramatize the
key concepts in the holistic Life Creation Process in order to make them
easier for you to understand, learn to use, and remember. In addition to the
mimetic (movie-like) or metonymic (the cinematic analogy, i.e., the movie
makes the complex concepts involved in the holistic Life Creation Process
easy to discuss with and teach other people. Most people are already
familiar with the meaning of most of the movie industry terms used such as
star, actor, screen image, script, cast, producer, director, and sequel, and they
understand how all the key aspects of a movie can either contribute to its
success or ruin the entire project. Therefore, using the cinematic terms
makes it easier for people to comprehend how all the key aspects of their
Ideal Future Life must be harmonious in order to achieve the desired
results. As you complete the Life Creation Process Exercises, you will be
directed to analyze the key aspects of your Present Life and create a script
for your Ideal Future Life using techniques that are similar to those
employed by successful movie stars, directors, producers, set designers, and
script writers (e.g., DItillio, ., 1995). You will also be guided to identify the
Transitional Life goals that you will need to achieve in order to segue from
living your Present Life to living your Ideal Future Life. The Ideal Future Life
that you design at this present time is definitely not all there is or will ever
be possible in your life. As you grow and change, you will update your
vision of your ideal life. What is used here is the Life Creation Process
Exercises will empower you to continually recreate your Ideal Future Life through planned sequels in order to keep your life well
balanced and overflowing with happiness and spiritual joy. The resources
used for this book reflect my multidisciplinary approach to the Life Creation
Process as well as my positive psychological orientation. The book includes
concepts from the traditional scholarly social-psychological literature, the
popular self-help and self-improvement literature, and the media (plays,
movies, tv, newspapers and magazines). The material includes both
multidisciplinary academic resources and popular self-improvement
resources that I have used, and found to be beneficial, during my own
explorations in personal growth, growth, and Ideal Future Life creation.
Most of the new material in this revised version of Create Your Ideal Life is
from information that I have incorporated into my lectures, in-class
exercises, and course assignments over the past 15 years.
