**A Learner’s Guide to the Old Church Slavic Language: Grammar with exercises-Philip J. Regier 1977** This book is intended as a guide for those who wish to learn a language which is important for comparative Slavic studies (in order to facilitate subsequent study of more than one of the Slavik languages, just as Latin facilitates study oft he Romance languages), for an understanding of the Church Slavik element of Russian (as important as the Latin element in English), or for comparative Indo-European studies. The approach taken is that of generative grammar, which provides for the most cohesive and precise formulation of the principles of a language, enabling the student to learn the language from the inside out.

**Word-Formation-Peter O. Müller 2015-09-14** This handbook comprises an in-depth presentation of the state of the art in word-formation. The five volumes contain 297 articles written by leading international scholars. The XVI chapters of the handbook provide the reader, in both general articles and individual studies, with a wide variety of perspectives: word-formation as a linguistic discipline (history of science, theoretical concepts), units and processes in word-formation, rules and restrictions, semantics and pragmatics, foreign word-formation, language planning and purism, historical word-formation, word-formation in language acquisition and aphasia, word-formation and language use, tools in word-formation research. The final chapter comprises 74 portraits of word-formation in the individual languages of Europe and offers an innovative perspective. These portraits afford the first overview of this kind and will prove useful for future typological research. This handbook will provide an essential reference for both advanced students and researchers in word-formation and related fields within linguistics.

**Proto-Slavic Inflectional Morphology-Thomas Olander 2015-04-13** In this volume, Thomas Olander offers a historical analysis of the inflectional endings of Proto-Slavic, comparing them with the corresponding endings in related languages and reconstructing the Proto-Indo-European point of departure.

**Sources of Slavic Pre-Christian Religion-2020-10-12** In Sources of Slavic Pre-Christian Religion Juan Antonio Álvarez-Pedrosa presents all known medieval texts that provide us with information about the religion practiced by the Slavs before their Christianization.

**The Slavonic Languages-Aadnoy Bernt S 2003-09-01** In this scholarly volume, each of the living Slavonic languages are analysed and described in depth, together with the two extinct languages - Old Church Slavonic and Polabian. In addition, the various alphabets of the Slavic languages - particularly Roman, Cyrillic and Glagolitic - are discussed, and the
relationships of the Slavonic languages to other Indo-European languages and to one another, are explored. The last chapter provides an account of those Slavonic languages in exile, for example, Russian, Ukrainian, Polish, Czech and Slovak in the USA. Each language-chapter is written by an expert in the field, in a format designed for comparative study. Information on each language includes: an introductory description of social context and development (where appropriate); a discussion of phonology; a detailed presentation of synchronic morphology, noting major historical developments; comprehensive treatment of syntactic properties; a discussion of vocabulary; an outline of main dialects; and an extensive bibliography, listing English and other sources.

Russian Historical Grammar - W. K. Matthews 1960 The material which makes up the text of this book is arranged for convenience of reference in the three coherent parts, of which the last is essentially a supplement to the preceding two. Part I provides the requisite orientation for readers who may be new to linguistics, and its first two chapters should be useful to students of both Russian and other other Slavonic languages. The remainder of Part I is intended specifically for those studying Russian and constitutes, as it were, the prolegomena to Part II, which is entirely concerned with the evolution of the Russian phonological and grammatical system in its conventionally accepted domains and categories. Part II contains a series of appendices of which the first illustrates the evolutionary process with annotated excerpts from the historical records of the language covering a space of nine centuries; the main body of the work concludes with a short history of Russian historical grammar and a classified and annotated bibliography.

Handbook of Scripts and Alphabets - George L. Campbell 1997 The Routledge Handbook of Scripts and Alphabets is a unique reference to the main scripts and alphabets of the world. The Handbook presents over 60 alphabets covering an enormous scope of languages; from Amharic and Chinese to Thai and Cree. Full script tables are given for every language and each entry is accompanied by a detailed overview of its historical and linguistic context. New to this second edition: enhanced introduction discussing the basic principles and strategies utilized by world writing systems expanded to include more writing systems improved presentation of non-Roman scripts. organised into ancient, contemporary and autochthonous writing systems many new entries on fascinating and lesser-known writing systems This handy resource is the ideal reference for all students and scholars of language and linguistics. It has been brought to our attention that in some of the copies of the book there is an alignment error in the tables for Cyrillic Scripts (pages 88-90) and Roman Scripts (pages 140-44). Please contact us at Isabelle.Cheng@tandf.co.uk to receive replacement copies of the corrected tables, free of charge. Please accept our apologies for any inconvenience caused.

Handbook of Russian Literature - Victor Terras 1985-01-01 Profiles the careers of Russian authors, scholars, and critics and discusses the history of the Russian treatment of literary genres such as drama, fiction, and essays

The Routledge Handbook of Scripts and Alphabets - George L Campbell 2013-04-26 The Routledge Handbook of Scripts and Alphabets is a unique reference to the main scripts and alphabets of the world. The Handbook presents over 60 alphabets covering an enormous scope of languages; from Amharic and Chinese to Thai and Cree. Full script tables are given for every language and each entry is accompanied by a detailed overview of its historical and linguistic context. New to this second edition: enhanced introduction discussing the basic principles and strategies utilized by world writing systems expanded to include more writing systems improved presentation of non-Roman scripts. organised into ancient, contemporary and autochthonous writing systems many new entries on fascinating and lesser-known writing systems This handy resource is the ideal reference for all students and scholars of language and linguistics. How Russian Came to Be the Way It Is - Tore Nesset 2015

Compendium of the World’s Languages - George L. Campbell 2020-07-01 This third edition of Compendium of the World’s Languages has been thoroughly revised to provide up-to-date and accurate descriptions of a wide selection of natural language systems. All cultural and historical notes as well as statistical data have been checked, updated and in many cases expanded. Presenting an even broader range of languages and language families, including new coverage of Australian aboriginal languages and expanded treatment of North American and African languages, this new edition offers a total of 342 entries over nearly 2000 pages. Key features include: Complete rewriting, systematization and regularization of the phonology sections Provision of IPA symbol grids arranged by articularity feature and by alphabetic resemblance to facilitate use of the new phonology sections Expansion of morphology descriptions for major language Provision of new illustrative text samples Addition of a glossary of technical terms and an expanded bibliography Comparative tables of the numerals 1-10 in a representative range of languages, and also grouped by family Drawing upon a wealth of recent developments and research in language typology and broadened availability of descriptive data, this new incarnation of George Campbell’s astounding Compendium brings a much-loved survey emphatically into the twenty-first century for a new generation of readers. Scholarly, comprehensive and highly accessible, Compendium of the World’s Languages remains the ideal reference for all interested linguists and professionals alike.

Handbook of Medieval Culture - Albrecht Classen 2015-08-31 A follow-up publication to the Handbook of Medieval Studies, this new reference work turns to a different focus: medieval culture. Medieval research has grown tremendously in depth and breadth over the last decades. Particularly our understanding of medieval culture, of the basic living conditions, and the specific value system prevalent at that time has considerably expanded, to a point where we are in danger of no longer seeing the proverbial forest for the trees. The present, innovative handbook offers compact articles on essential topics, ideals, specific knowledge, and concepts defining the medieval world as comprehensively as possible. The topics covered in this new handbook pertain to issues such as love and marriage, belief in God, hell, and the devil, education, lordship and serfdom, Christianity versus Judaism and Islam, health, medicine, the rural world, the rise of the urban class, travel, roads and bridges, entertainment, games, and sport activities, numbers, measuring, the education system, the papacy, saints, the senses, death, and money.

Die slavischen Sprachen / The Slavic Languages. Halbband 2 - Sebastian Kemppen 2014-11-26 The present second volume completes the handbook Die slavischen Sprachen "The Slavic languages. Ein internationales Handbuch zu ihrer Struktur, ihrer Geschichte und ihrer Erforschung. An International Handbook of their History, their Structure and their Investigation". While the general conception is continued, the present volume now contains articles concerning inner and outer language history as well as problems of sociolinguistics, contact linguistics, standardology and language typology.

Handbook of Comparative and Historical Indo-European Linguistics - Jared Klein 2018-06-11 This book presents the most comprehensive coverage of the field of Indo-European Linguistics in a century, focusing on the entire Indo-European family and treating each major branch and most minor languages. The collaborative work of 120 scholars from 22 countries, Handbook of Comparative and Historical Indo-European Linguistics combines the exhaustive coverage of an encyclopedia with the in-depth treatment of individual monographic studies.
